

Parrot Bebop 2 Drone

PARROT

Applications include:

- Learn to use “follow me” for sports analysis and footage
- Agriculture applications such as crop analysis and spotting
- House inspection particularly roof inspection
- Search and Rescue
- General footage for class projects

To use you will need to obtain a pilot’s certificate from Navigation Canada, which the school will help you train for and cover expenses. This would make an excellent addition to any resume. The sky is not the limit!
